Why Buy Carts from Red Hawk?

Our secret to success lies in purchasing **quantities of top quality carts at competitive prices.** We also buy most of our carts from suppliers in the North East, where carts absorb less wear and tear.

Carts are brought to our 25,000 square foot office and warehouse facility in Baltimore, MD which features over three acres of golf carts being readied for our valued customers.

Each cart is **inspected for flaws by our team of golf cart professionals.** Accepted carts are steam cleaned, serviced, detailed and mechanically inspected.

Carts that meet our standards are rated on condition and placed into our huge wholesale inventory. **Call 1-866-666-7278 today and ask for Gillet Boyce or Jack Clough** to discuss the latest pricing or to set up an appointment to view our carts.

All wholesale cars purchased from Red Hawk are **complete, clean and in good running order.**

Carts feature **good matching tires** on the front and rear as well as **sound and adjusted brakes.**

No torn seats. No broken bodies. And all carts will run on and off the truck.

At Red Hawk, our mission is to provide you with a large selection of top quality parts at discounted prices while maintaining superior service and quick turnaround. Experience the difference Red Hawk makes.

BATTERY DRIP TRAYS

- Durable, battery acid-resistant plastic trays designed to catch water and acid that will boil over during charging, preventing acid contact with frame.
- Works great on older carts that have previous corrosion.
- Strengthens battery rails, keeps battery acid from dripping on garage floors and driveways.

BATTERY CHARGERS, PARTS & BATTERY ACCESSORIES

FULLY AUTOMATIC BATTERY CHARGER

Hot! New! Multimode Electronic Charger by Schauer

**EXPORT
CHARGER**

Intelligent chargers follow battery impedance to end of charge cycle for all battery types.

Fully automatic charger that is less than 1/2 the size and less than 1/4 the weight of a conventional automatic charger.

- Low Voltage Start: will charge a deeply discharged battery with terminal voltage less than 4 volts.
- Charge Control: constant current charge to a constant voltage then to a float standby.
- Will work with 110 or 220 volt input.
- Great for overnight charging.
- Fully automatic 3 stage charger can be left on the battery in maintaining/float mode.
- Reverse polarity and short circuit proof.
- Available in 36V and 48V.

SPARK PLUGS

- Multi-ribs of insulator eliminate flashover.
- Insulator made of 95% pure alumina, strong resistant to heat shock, great mechanic/electric features, super insulation.
- Nickel plated housing prevents oxidation and corrosion, heat crimping process ensures absolute gas-tight fit.
- Inner sealing with conductive glass ensures fine conductivity and sealing.
- Multi-layer gaskets are elastically strong, and reliable in sealing.
- Copper core electrode prevents oxidation and corrosion, good electric and heat conductivity, long spark plug service.

RED HAWK™ has teamed with

**Now EXCLUSIVELY through Red Hawk...
Dealer Pricing on One of the Industry's Leaders - Marxcars!**

WHOLESALE EXCLUSIVES!

Available in many colors, including:

A few years ago, Mark Thomas purchased his first used gas powered golf cart to get around his property in Chesapeake, VA. It didn't take long for him to become bored with its plain appearance. So he decided to take a perfectly good golf cart, disassemble it down to the frame and built his first golf cart. With great results and encouragement, Marxcars has continued to produce products that join quality & excitement.

Marxcarts standard features:

7" Lift
23" tires
Available in gas or electric
12" Aluminum wheels w/chrome lugs
Aluminum running boards
Custom base coat clear paint finish
Head and tail lights
